Dear Maha ELBAYAD

Requirement to provide personal identifiers (biometrics) for the purposes of section 40 of the *Migration Act 1958* (the Act) in regard to your Visitor (class FA) Visitor (Business) (subclass 600) visa application

In the following information, when we say 'you' we mean all applicants listed below.

Offshore visa applicants in selected overseas locations need to provide personal identifiers in the form of fingerprint scans and a digital facial photograph.

Under section 257A and for the purposes of section 40 of the Migration Act, I require each applicant listed in the table(s) below to provide personal identifiers in the form of fingerprint scans and/or a digital photograph of their face and shoulders by attending a Visa Application Centre or Biometrics Collection Centre within 14 days after you are taken to have received this letter.

The only fingerprint scans and facial photographs that will be accepted are those taken by staff at a Visa Application Centre or Biometrics Collection Centre.

If you have been required by a delegate to provide your personal identifiers under section 257A of the Migration Act, and you do not comply with the requirement, nor has the requirement been withdrawn, then your visa application must be refused under section 65 of the Migration Act because the grant of a visa is prevented under section 40 of the Migration Act.

Providing personal identifiers

In order to provide personal identifiers, all applicants listed above need to attend a Visa Application Centre or Biometrics Collection Centre in person with this letter and a current passport for each applicant. You should make an appointment prior to attending the Visa Application Centre or Biometrics Collection Centre.

The address and contact details of your nearest Visa Application Centre or Biometrics Collection Centre are available at www.border.gov.au/Trav/Visa/Biom/biometrics-countries

You should provide your personal identifiers before you travel to Australia. If any of the applicants listed above are unable to provide their personal identifiers for any reason, contact the office processing your application as soon as possible.

Biometrics provision for minors

The following arrangements regarding minors (applicants under 18 years of age) included in the application. Depending on the age of the minor(s) at the date of biometrics collection, the following biometrics provision guidelines apply:

- minors aged less than five years may be required to provide a photograph of their face and shoulders only; and
- minors aged five years and over but less than 18 years may be required to provide their fingerprints and a photograph of their face and shoulders.

Minor applicants are required to provide personal identifiers in the form of fingerprint scans and/or a digital photograph of their face and shoulders (depending on the age of the minor as described above) by attending a Visa Application Centre or Biometrics Collection Centre within 14 days after you are taken to have received this letter.

Under Policy, the presence of a parent or guardian is required before personal identifiers are collected from minors aged less than 16 years.

Biometrics provision for incapable persons

If someone included in this application is an 'incapable person' contact this office.

An 'incapable person' means a person who does not have legal capacity to understand the significance of a requirement to provide a personal identifier; this includes the general nature and effect of, and purpose of, a requirement to provide a personal identifier. For example, someone with an intellectual disability. Evidence may need to be provided that they are considered an 'incapable person'.

The following arrangements apply to 'incapable persons':

- a photograph of their face and shoulders only will be taken.

Under policy, the presence of a parent or guardian is required before personal identifiers of incapable persons are collected.

Processing your application

While every effort is made to process visa applications as quickly as possible, until all applicants listed above have provided personal identifiers this application may not be finalised.

The provision of personal identifiers is only one of several stages in the visa assessment process. As I have required you to provide personal identifiers, compliance with this requirement will assist us to process your application as quickly as possible.

Additional Information

Applicants who have spent 28 days or longer in the countries listed below since 5 May 2014 should provide a current polio vaccination certificate. This is in response to the World Health Organization's declaration of a Public Health Emergency of International Concern, noting recent outbreaks of polio in these 5 countries.

If you have not yet provided the department with a current certificate of vaccination against polio with your visa application, you should bring the certificate to your biometrics appointment. If you do not provide the vaccination certificate, the processing of your application may be unnecessarily delayed.

Countries: Afghanistan, Nigeria, Pakistan, Syrian Arab Republic, Democratic Republic of Congo

Your information – your privacy

Your personal information is protected by law, including the *Privacy Act 1988*. Important information about the collection, use and disclosure of your personal information, including sensitive information, is contained in Form 1442i *Privacy Notice*.

Form 1442i is available from our website at www.border.gov.au/privacy You should become familiar with this information before providing your personal information to us.

For more detailed information about how personal identifiers may be used, read Form 1243i *Your personal identifying information* available at www.border.gov.au/Forms/Documents/1243i.pdf

Receiving this Letter

As this letter was sent to you by email, you are taken to have received it at the end of the day it was transmitted.

Yours sincerely
